After Consolidation the Organization Will Invade Brooklyn.

RAINSFORD RENEWS HOPE.

His Speech Encourages the Reformers in the Belief That They Can Win.

CUTTING OUTLINES PLANS.

Says Steps Have Been Taken to Organize Assembly Districts and That Brooklyn Will Fall in Line.

The Citizens' Union is becoming more ambitious as it gains strength. Its next move, if the Greater New York charter

CUTTING VERY CONFIDENT.

Dr. Rainsford's declaration in favor of the Citizens' Union will give great strength to the movement. He is popular among the wage workers, and they have confidence in him. His advice to them will be worth more than would be the work of dozens of ward politicians.

From every source comes encouragement for the Citizens' Union. No reform movement with which I am familiar, ever gave such promise. I do not care to predict results, but the information coming from different districts gives me the greatest confidence in the outcome. We expect before long to have an organization in every Assembly District. No definite plans have been formed for Brooklyn, but if the charter is signed, we will either extend the lines of the Citizens' Union to Brooklyn, or else there will be a separate organization formed there, with which the Citizens' Union can unite. FROM AN INTERVIEW WITH R. FULTON CUTTING, PRESIDENT OF THE CITIZENS' UNION.

through, will be to extend its lines to Brooklyn. In the meantime it has undertaken the formation of organization in every Assembly District of the present New York.

Dr. Rainsford said yesterday that they gathered renewed faith in the movement by the speech of the Rev. Dr. Rainsford, rector of St. George's Church, in which he declared that it was time to cut away from the two old parties in municipal affairs and join with the Citizens' Union in the independent movements. Friends of Dr. Rainsford knew of his personal feeling with regard to the city campaign, but they were surprised by his coming out so frankly. It is claimed by them that his declaration will be worth thousands of votes to the Union. His popularity among wage earners is given as the basis for this argument, and, on the other hand, it is maintained that his influence with the wealthy is equally great. It is said that he should continue through the campaign with the same energy as at the start his friends believe his advice will be in as great demand as was that of Dr. Parkhurst in '94.

Dr. Rainsford is particularly interested in the outcome, because R. Fulton Cutting, who is at the head of the Citizens' Union, is an officer in St. George's Church. Mr. Cutting has the greatest faith in the movement, and yesterday outlined the plans. He said it had not been definitely decided what form the organization would take in Brooklyn. No final plans will be decided upon till the Greater New York charter is approved, but believing that the charter will go through, the leaders in the reform movement have discussed the situation with prominent Brooklyn men. One of two courses will be followed. Either a separate or independent movement will be started in Brooklyn, with a view of having the reformers of the two cities unite, or the Citizens' Union will be expanded to take in the additional territory.

Among the men who will take the leading part in Brooklyn are Alexander E. Orr, president of the Chamber of Commerce; A. A. Low, brother of Seth Low; ex-Mayor Schieren, the Rev. Dr. Lyman Abbott and Henry W. Maxwell. It is expected that Edward M. Shepard will come in later with his organization, but to be consistent it is understood that he must first try to make friends with the regular Democracy. Edward M. Groun and Justice Gagnor have declared their intention of standing by the Democratic organization.

PARKHURST STANDS BY HIM.

I am glad to see Dr. Rainsford come out for the Citizens' Union. He takes the same position with regard to the two old parties that I do. One is as bad as the other. It is hard to tell which is the worst. Now is the time to advocate the independent movement. Men must be set thinking, and the earlier the better. FROM AN INTERVIEW WITH THE REV. DR. PARKHURST.

The reformers will not have the advantage in Brooklyn they had in New York of having existing organizations from which to build up a new one. The Sheppardite organization has lost much of its former strength and besides it exists on political lines, while the Citizens' Union is non-partisan.

REV. DR. RAINSFORD'S VIEWS.

I am glad Edward Lauterbach has made the issue in the next municipal campaign so clear. We knew the position of the party he represents and of the Democratic organization before, but some people might have been deceived. Now the lines of the contest are plain to all. Against each other there will be two organizations fighting for the control of offices worth \$4,000,000 in salaries. For people who love honesty in municipal affairs as well as in business, who believe in having the city conducted on business principles, and who do not blindly follow politics in an issue where partisanship is entirely out of place, then will be the ticket nominated by the Citizens' Union.

On the result depends whether we will give up what has been accomplished in departments where it was possible to accomplish anything during the past three years, or whether we shall go back to the conditions existing before. We know from the results in the Street Cleaning Department, what can be accomplished by reform. In view of these facts I think it is reasonable to be confident that the independent movement will win. I have faith in the good sense of a majority of the people. I think they realize that it is time to abandon partisanship in municipal affairs. In any event, if we do not win this year, we will in years to come, and I want to be one of those to help start the movement promising so much for New York's future government. FROM AN INTERVIEW WITH THE REV. DR. RAINSFORD, RECTOR OF ST. GEORGE'S CHURCH.

Each of the two factions of the Republican party are thoroughly partisan. There are so many dissatisfied elements in both parties, however, that the reformers believe a new organization can be built up rapidly.

The various committees of the Citizens' Union are looking after the preparations for forming election district organizations. These reports, it was said yesterday indicate that New York would be organized in all districts before the general election begins.

MANIAC LANDLORD'S ACTS

Shoots Revolvers and Smashes Furniture and Says It Is All Ordered by a Decree

Armed with two revolvers, a long bladed knife and a big hatchet, a madman terrorized the tenants at No. 1477 Madison avenue yesterday morning. He is Charles H. Hirschman, a real estate dealer, of No. 1150 Third avenue. He owns the house whose tenants were almost panic stricken by his wild actions, and he lives on the first floor with his mother and sister.

He began his wild career about 2 o'clock in the morning by breaking up his parlor furniture. The racket he made disturbed

every one in the house. He smashed the window glass and swore he would set the place on fire. He wandered through the

house, cursing the tenants and averting vengeance on all human beings. He discharged his pistols right and left. One bullet went through the door of P. B. Hartford's apartment on the third floor.

ALLEGED LUNATIC A KENT.

Nouri, Whom a California Judge Sent to an Asylum, Has Been Restored to His Syrian Throne.

San Francisco, April 20.—John Joseph Nouri, who was committed to the asylum for the insane at Napa four years ago, has been crowned patriarch in the Chaldean Pontifical Cathedral at Trichur, Malabar, and is now ruler over Syrian Chaldeans. The news comes in a letter from Rev. John H. Barrows, of Chicago, who is at present travelling.

Nouri arrived in this city in 1892. He claimed to have discovered Noah's Ark on the summit of Mount Ararat. He performed several tasks in Washington that proved him to be an accomplished Oriental religious scholar.

He threatened after his release from the insane asylum to sue the United States Government for \$5,000,000 damages for his ill-treatment while in his asylum here. Now comes the climax to the story in the letter from the Rev. John H. Barrows, dated last night, that Nouri was really the deposed King of the Chaldeans, that he has been restored and that the man who was booked as a lunatic is living in splendor in a palace in Trichur.

That Tired Feeling

An exceedingly common and dangerously significant condition. A warning which must be heeded, or, as with the express train which fails to regard the danger signal, disaster must follow. A sure indication of thin, weak, impoverished blood. A certain admonition that the blood is not properly feeding the nerves, tissues and organs of the body.

An imperative demand for the tonic, vitalizing effect of Hood's Sarsaparilla upon the blood.

Weak, nervous, tired men and women are found everywhere. Men strive too hard to "keep their ends up," women too anxiously work "on their nerves" to meet the demands of home and society, all have too little sleep, and the excessive drain on strength and nervous energy will soon completely ruin health.

The strength must be built up by pure blood, and the nerves must also find in pure blood the proper nerve food. For this purpose nothing equals Hood's Sarsaparilla.

The thousands of wonderful cures it has accomplished, the like of which no other medicine can show, prove its curative merit; prove it has never been equalled as a blood medicine; prove that Hood's Sarsaparilla is indeed the Ideal Spring medicine, the best nerve and stomach tonic, the one true blood purifier.

All Tired Out. "My husband was all tired out and run down in health. He felt the need of something to build him up, and he began taking Hood's Sarsaparilla and Hood's Pills, and the result was very satisfactory. We regard Hood's Sarsaparilla and Hood's Pills as excellent medicines." MRS. H. L. MOWRY, Towns, Pa.

Tired and Worn Out Feeling. "I have been taking Hood's Sarsaparilla, and cannot say too much in its favor. It has done me more good than any medicine I have ever tried. I have advised my friends to use it for a tired and worn out feeling, as I know that it gives relief." WILLIAM T. HURDLE, Hollywood, Cal.

BLACK WOULDN'T TAKE THE TIP.

He Signed the Raines Law Amendments Without a Struggle.

PROTEST NOT HEEDED.

Lauterbach Had Gloomy Forebodings for the Future, but the Governor Guessed Last.

FAKE HOTELS KNOCKED OUT.

Lyman at Once Telegraphed His Subordinates of the Executive's Action, and Instructed Them to at Once Enforce the New Law.

Albany, N. Y., April 20.—Governor Black at 3 o'clock this p. m. affixed his signature to the amendments to the Raines law by the "country" leaders of the Republican party, who hope to drive from existence fake hotels. The Raines law brought these into existence.

The procedure of Governor Black in signing the law was simple. He had been warned by Edward Lauterbach and other Republican leaders in New York City, that to enact the law meant the Republican party cannot win in the Greater New York election. Nevertheless, Governor Black signed his name to the bill in the same manner that he would have signed a check for his club dues.

Colonel Griffith, handed the Raines law amendments to the Governor with some other bills.

"The Raines bill," said Griffith, "Ah!" said the Governor. Several strokes of the pen and it was settled. A messenger carried the measure to the Secretary of State's office, where it became a part of the statutes of the State.

There was no opinion given by the Governor on the law. Immediately upon learning of the Governor's approval of the bill Excise Commissioner Lyman by telegraph notified all his deputies and special agents that the law was enacted, and that they must proceed to enforce its provisions, especially against the clubs and hotels.

TO "BEAT" RAINES LAW.

Members of Convivial Republican Ward Clubs Looking for Loopholes of Safety.

The Republican machine leaders have already begun to study the Raines excise amendments with a view of discovering loopholes. They would like to find something that will ease the burden of their political clubs, which will be hard pushed for existence after May 1, provided they want to distribute liquor.

As one politician put it yesterday: "John Raines may make a law, that is easy; but to enforce it is entirely another matter."

The opponents of the amendments believe they have already found a way to get around one of its provisions.

It is suggested that chapters of clubs formed prior to the enactment of the original Raines law may be purchased, thus affording an opportunity to clubs to distribute beverages during the prohibitory days and hours.

Another suggestion has also been made that the members of legitimate clubs which pay the \$800 tax have lockers built at the club houses, each man stocking his locker to suit his individual taste. This would practically make a dead letter of the amendment which prohibits the distribution of liquor during Sunday, election day, etc.

The general discussion of the old chapter idea will make a market for chapters of clubs formed before March, 1896. There are said to be several thousands of such chapters for sale in New York and Brooklyn, many being those of defunct fishing and shooting clubs.

A prominent member of the Republican County Committee said yesterday that on Saturday last twenty chapters were offered for sale at the Chalmers, that he has been offered only in low tones, for club men are afraid the Legislature will abrogate all chapters not in legitimate operation if it is found

that they are being purchased in an attempt to evade the Raines law.

There is but little talk now regarding the constitutional question of the amendments. Edward Lauterbach said yesterday that he had no doubt they would, if tested in the courts, be declared constitutional.

Now that the amendments have been signed by Governor Black, the German-American Citizens' Union, of which John E. James is president, will take some formal political action. The union has a permanent enrollment of about 4,500 voters, and in its appeal last year to the Legislature for the passage of a liberal Sunday law it presented to the Senate a petition signed by 110,000 voters. As a consequence of the signing of the excise amendments the influence of the independent Germans who organized the union will be thrown against the Republican ticket in the Greater New York Mayoralty campaign.

IRELAND'S NEW LEAGUE.

It Adopts Resolutions Proclaiming Its Independence of Alliances with Any English Party.

Dublin, April 20.—There were 150 prominent Parliaments present at the Parliaments convention summoned to meet in this city to-day by John Redmond, the Parliaments leader.

A resolution was adopted providing for the foundation of an independent Irish League, in which agrarian interests are not to be dominant and which will be founded upon "the broader and sounder basis of independent political action for the benefit of the whole Irish nation." Secondly, the object of the league will be "civil and religious liberty and no further interference of priests in politics." Thirdly, "absolute independence of alliances with any English party, or political movement, and co-ordinate Parliament, the principle of federalism and Mr. Gladstone's Home Rule proposals, and, fourthly, unanimous suffrage, which will give to Parliaments a political majority in Ireland."

The League will also urge the immediate redress of Ireland's financial grievances, amnesty for political prisoners, land law reforms and the development and encouragement of labor and the industrial resources of the country. A temporary Executive Committee was elected to draft the plan of organization and to hold office until the Parliaments Convention meets again in October.

Gentry Saved from the Gallows.

Harrisburg, Pa., April 20.—The Board of Pardons tonight recommended the commutation of the death sentence imposed upon James B. Gentry, a Holmesburg prisoner, and his co-defendant, for the murder of a woman, to imprisonment for life. Governor Hastings approved the recommendation. Gentry was to have been hanged next Thursday.

The man who awakens from a deep sleep, just in time to ward off the blow of an assassin, who, knife in hand, is preparing to drive it into his heart, has had a narrow escape. There are thousands of grateful men who have escaped from the lethargy of recklessness and neglect, just in time to ward off the deadly assault of that dread enemy of mankind consumption.

The weapon with which these men have successfully combated this grim destroyer has been Dr. Pierce's Golden Medical Discovery. It is the only known medicine that will prevent and cure consumption. Taken in time, it will always ward off this deadly disease, and even after the devastating germs have attacked the lungs, it will cure 98 per cent. of all cases. It acts directly on the lungs, building up new, healthy tissues and driving out all disease germs. It corrects all stomach and digestive troubles, invigorates the liver and makes the appetite keen and hearty. It is the great blood-maker, flesh-builder and nerve tonic. There is nothing else "just as good" and the druggist who says so is untrustworthy.

I was a sufferer for five or six years from indigestion, sore stomach, and constant headaches. Dr. J. R. Holmes, of Gaffney, Spartanburg Co., S. C. "I tried several of our best physicians and found no permanent relief. By the persuasion of Mr. J. B. Tolson, a friend of mine, I commenced on the 28th September, 1895, to use Dr. Pierce's Golden Medical Discovery and Pellets—which gave me relief in a few days. Since then I have used five bottles of 'Golden Medical Discovery' and five vials of Pellets. When I commenced using the medicines I could not sleep, had a restless uneasy feeling all the time, and my skin was yellow and dry. I weighed only 125 pounds. I now weigh 170 pounds, have a good color, and rest well at night. I have a good appetite, can eat anything I wish. For two years, while under treatment by a physician, I ate nothing but Graham bread."

In reference to the above letter, J. R. Tolson, P. O. Box 375, Gaffney, Spartanburg Co., S. C. writes: "The above Mr. J. B. Holmes, is a good christian gentleman, and one whose word will go a long way with those who know him. I use and sell Dr. Pierce's medicines, and I recommended them to Mr. Holmes."

Dr. Pierce's Pleasant Pellets cure that disease-producing disorder, constipation. They never fail. They never gripe. Druggists sell them.
